## NKUST and CNA Team UP to Start Lessons and Researches Together

On Sep 1, NKUST President Yang, Ching-Yu signed a memorandum of understanding (MOU) with Republic of China Naval Academy (CNA) Superintendent RADM Lin, Chung-Shing (林中行).

This cooperation provides both schools a chance to share academic and research resources. What's more, students and scholars will be able to exchange thoughts.

NKUST has been putting great efforts into the international maritime conventions research, and it established a Center for International Maritime Convention Studies (CIMCS) at the end of 2020.

In the future, NKUST and CNA will conduct joint researches on the topics of shipping technology, maritime education, and maritime safety.

Both NKUST and CNA have adjusted their strategies to keep up with the international trend by moving all procedures online and making the information more transparent and accessible.

CNA Superintendent RADM Lin stated that CNA and NKUST are "complementary." CNA looked forward to furthering school-to-school exchanges in military, technology, knowledge, and professional skills.
