

phonegap

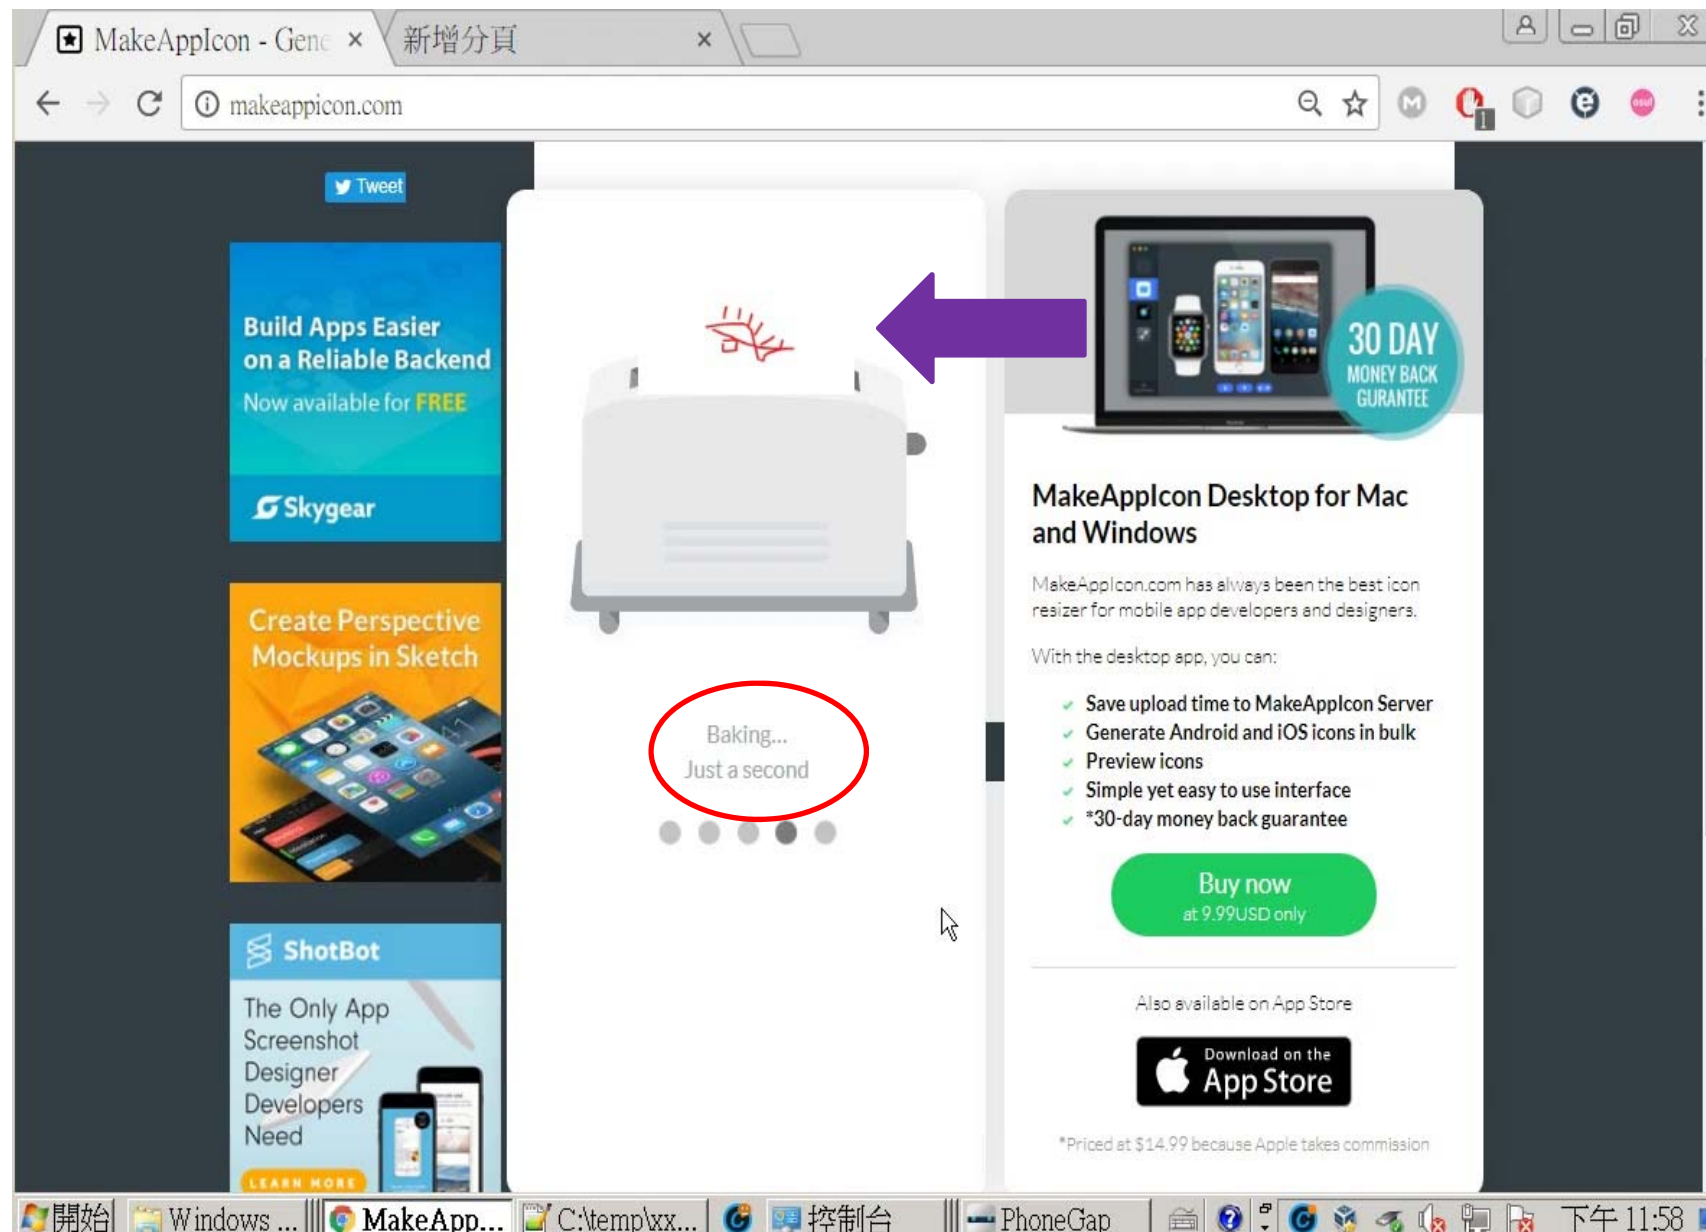

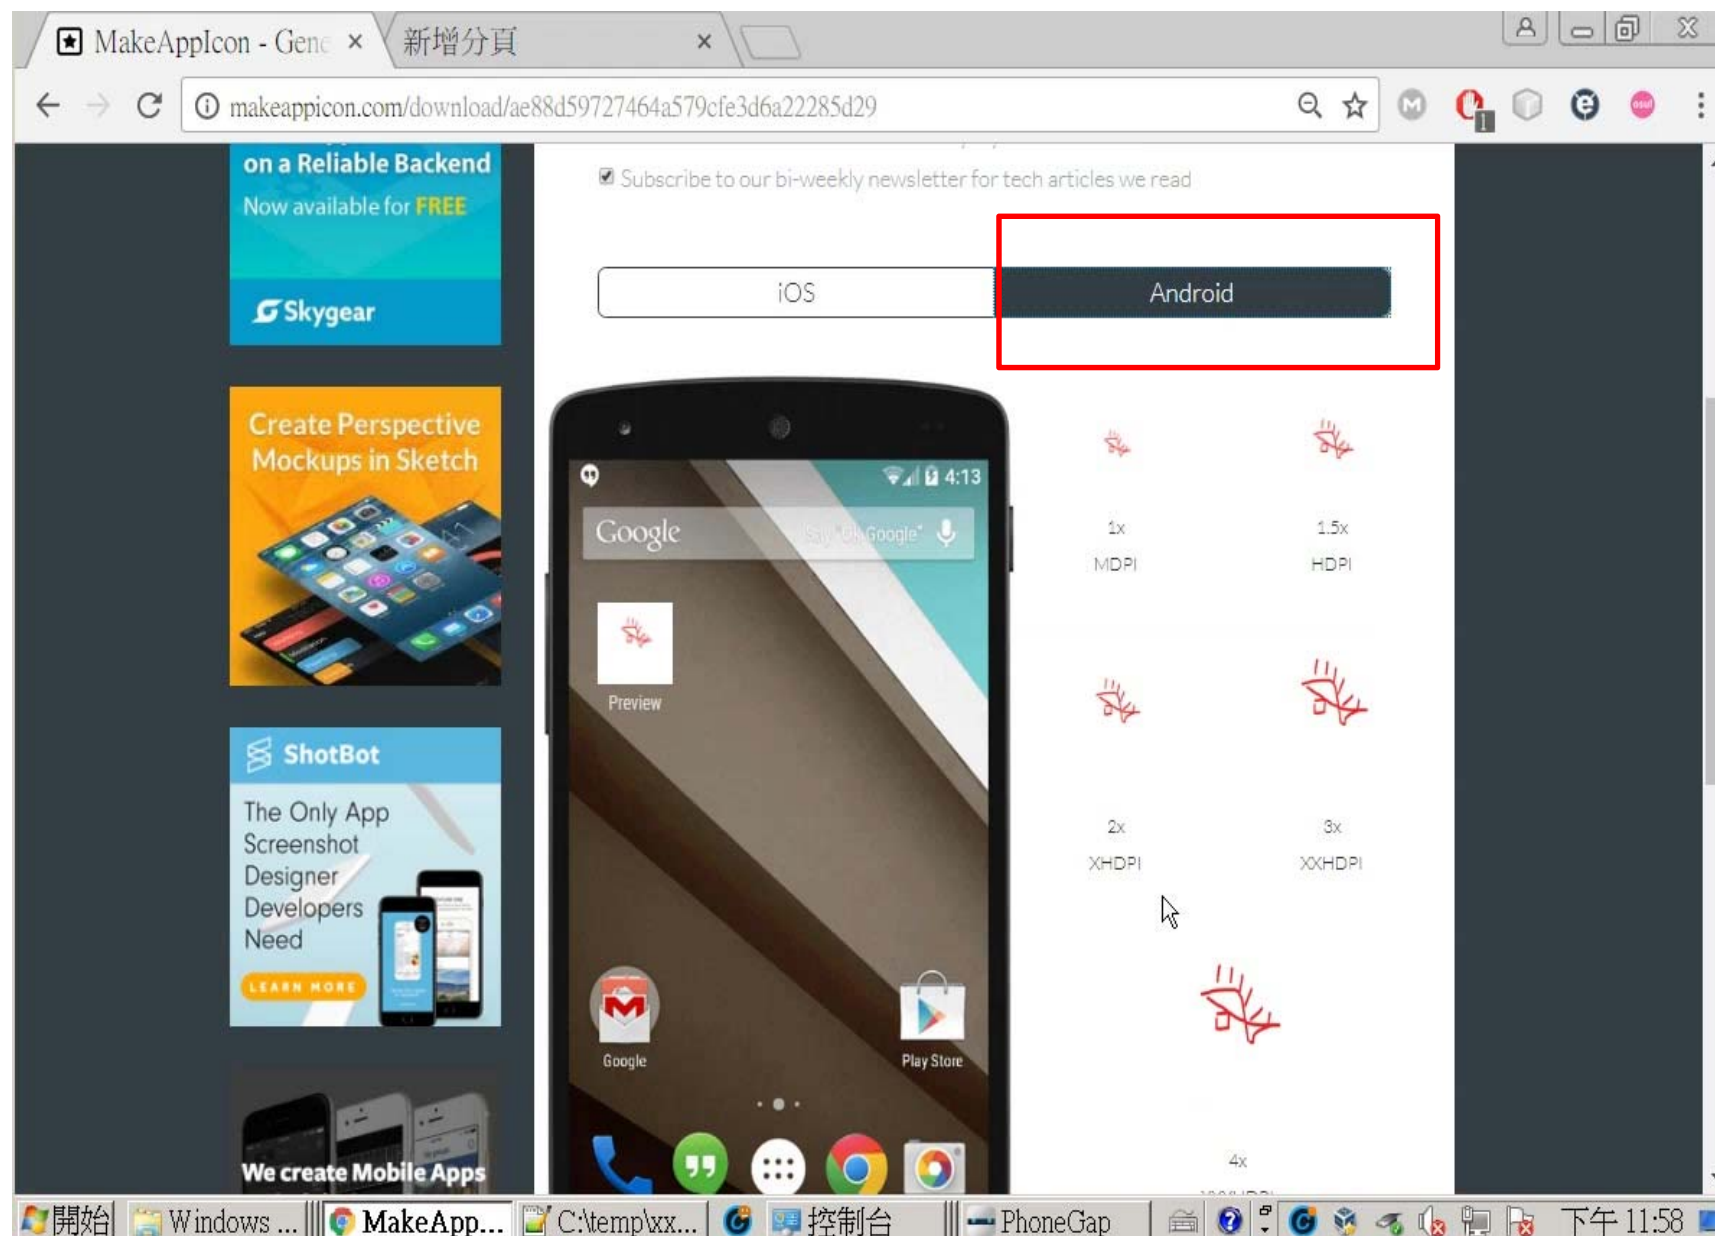

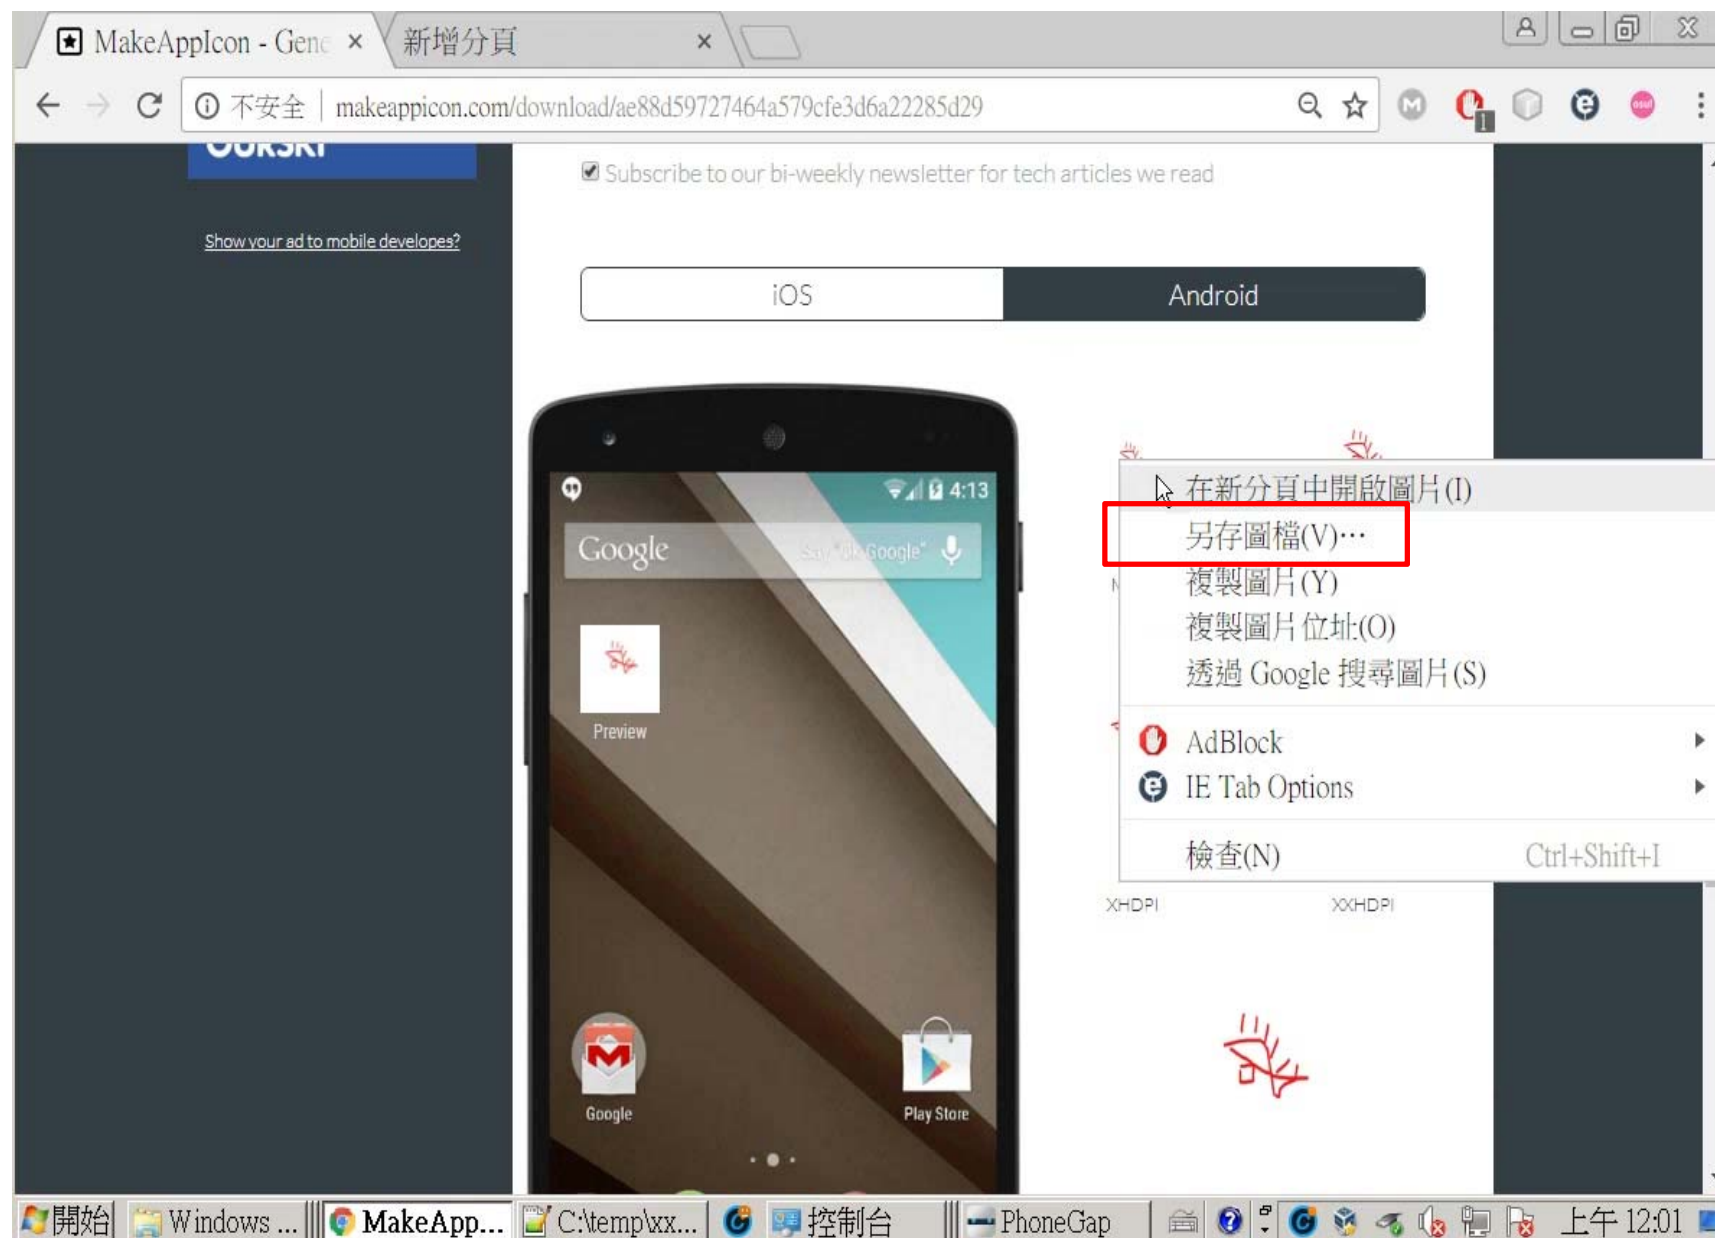

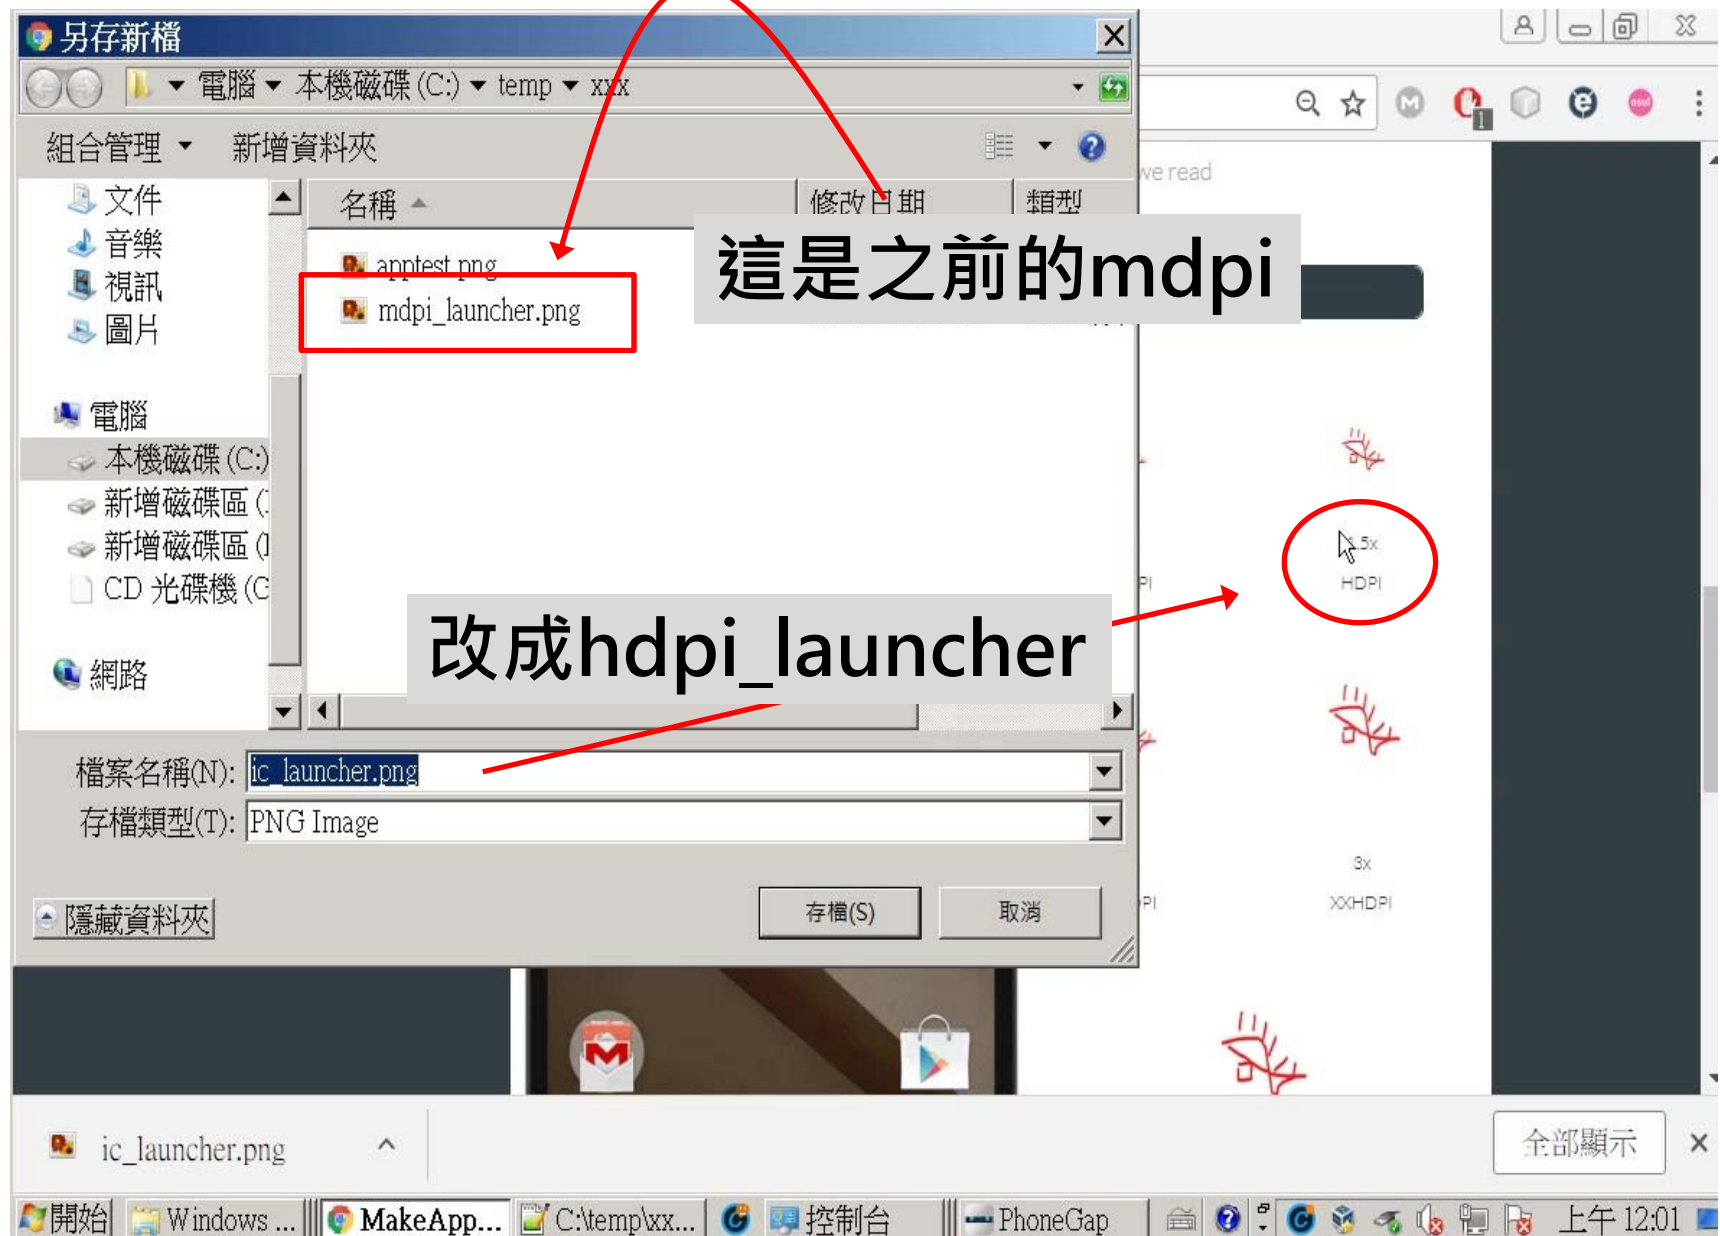

makeappicon.com

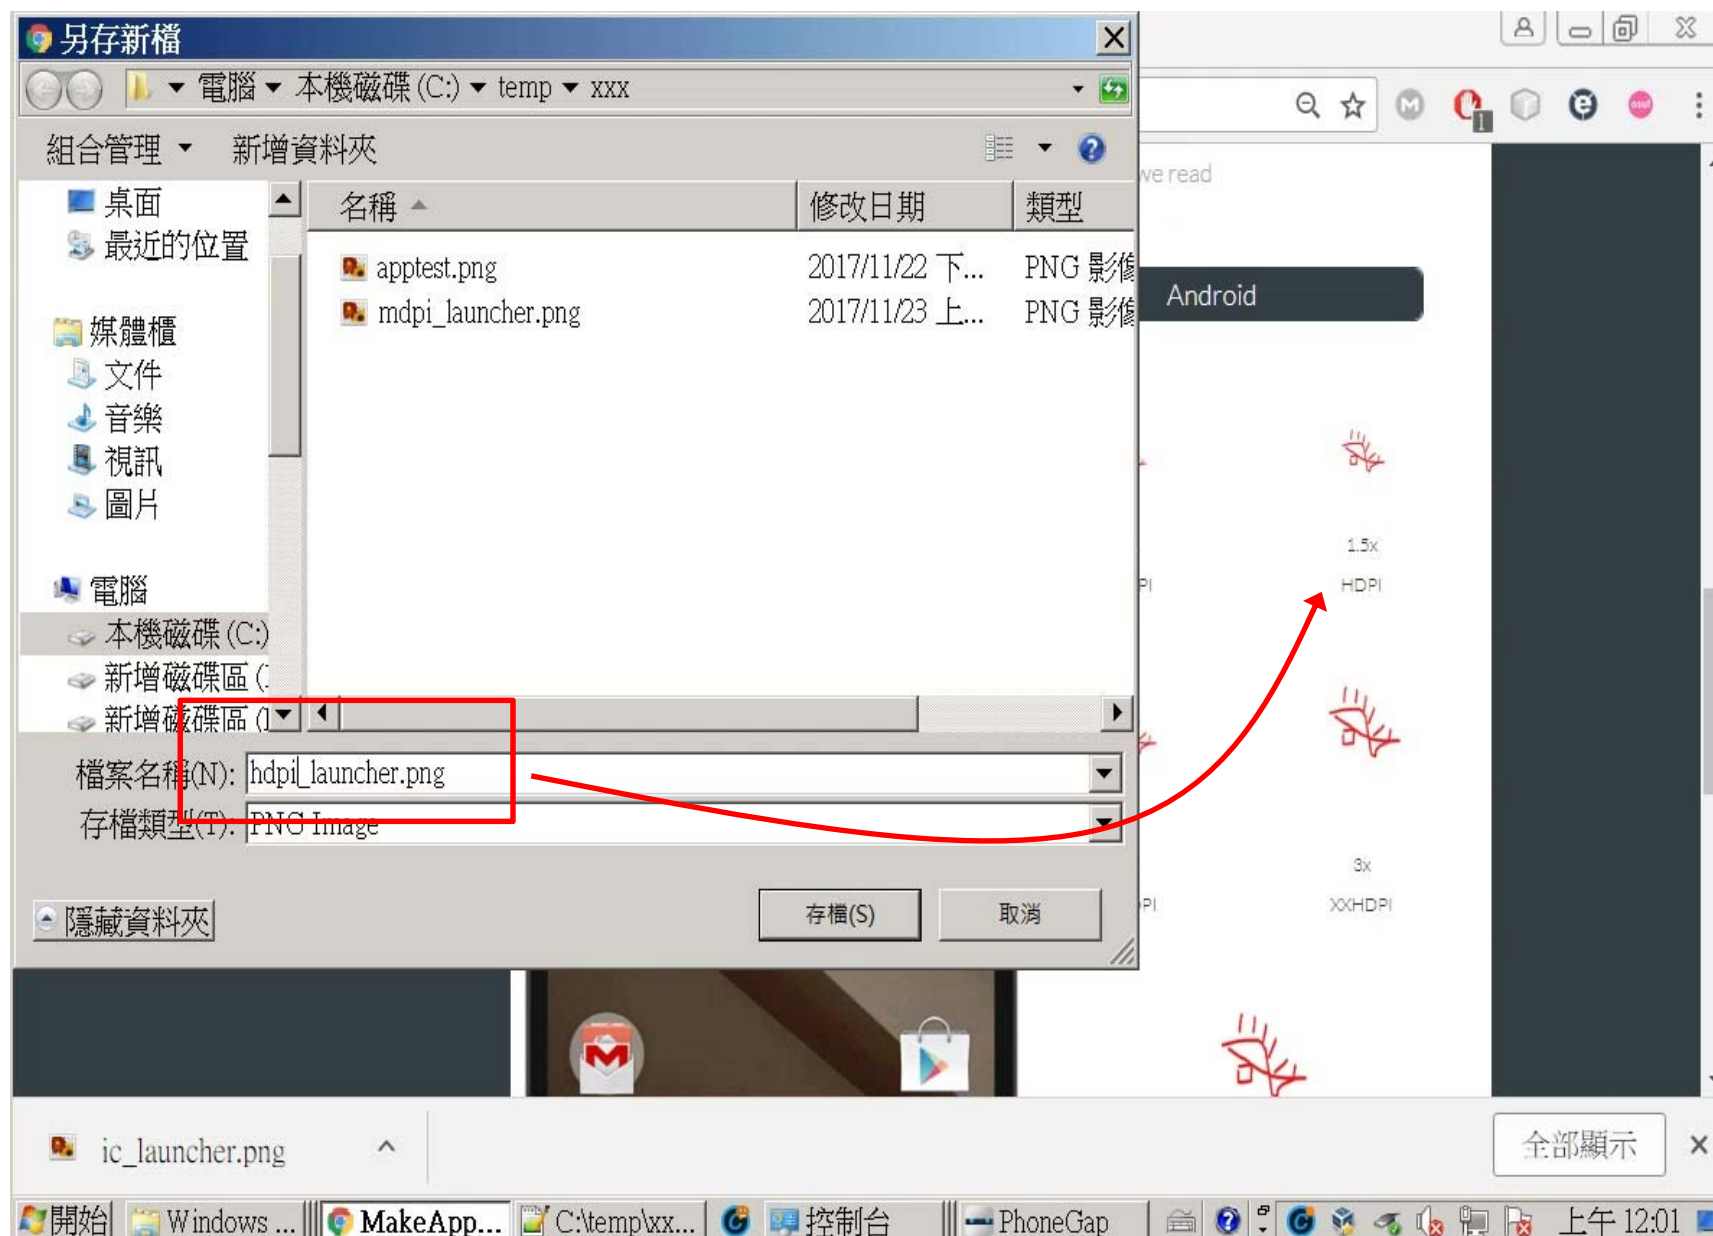

or

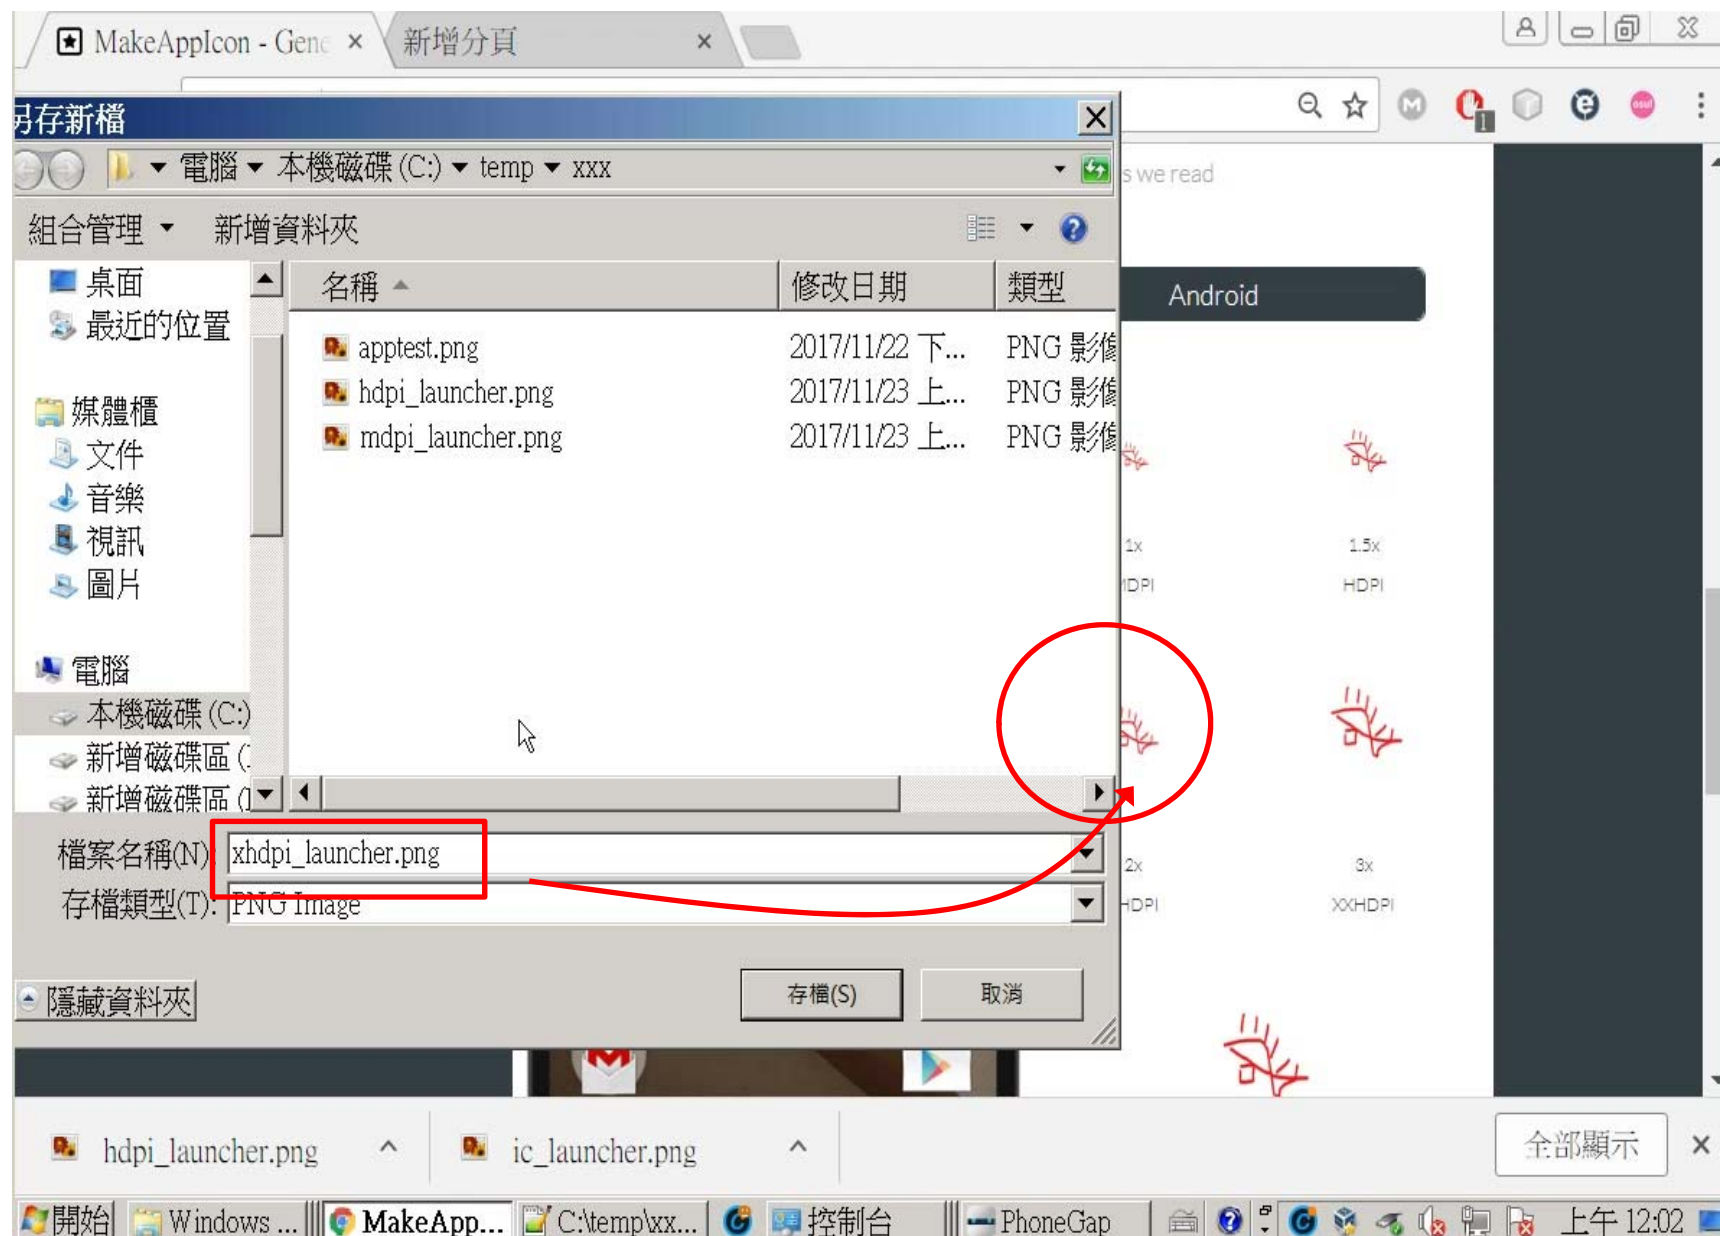

<http://phonegap.appiq.software/>

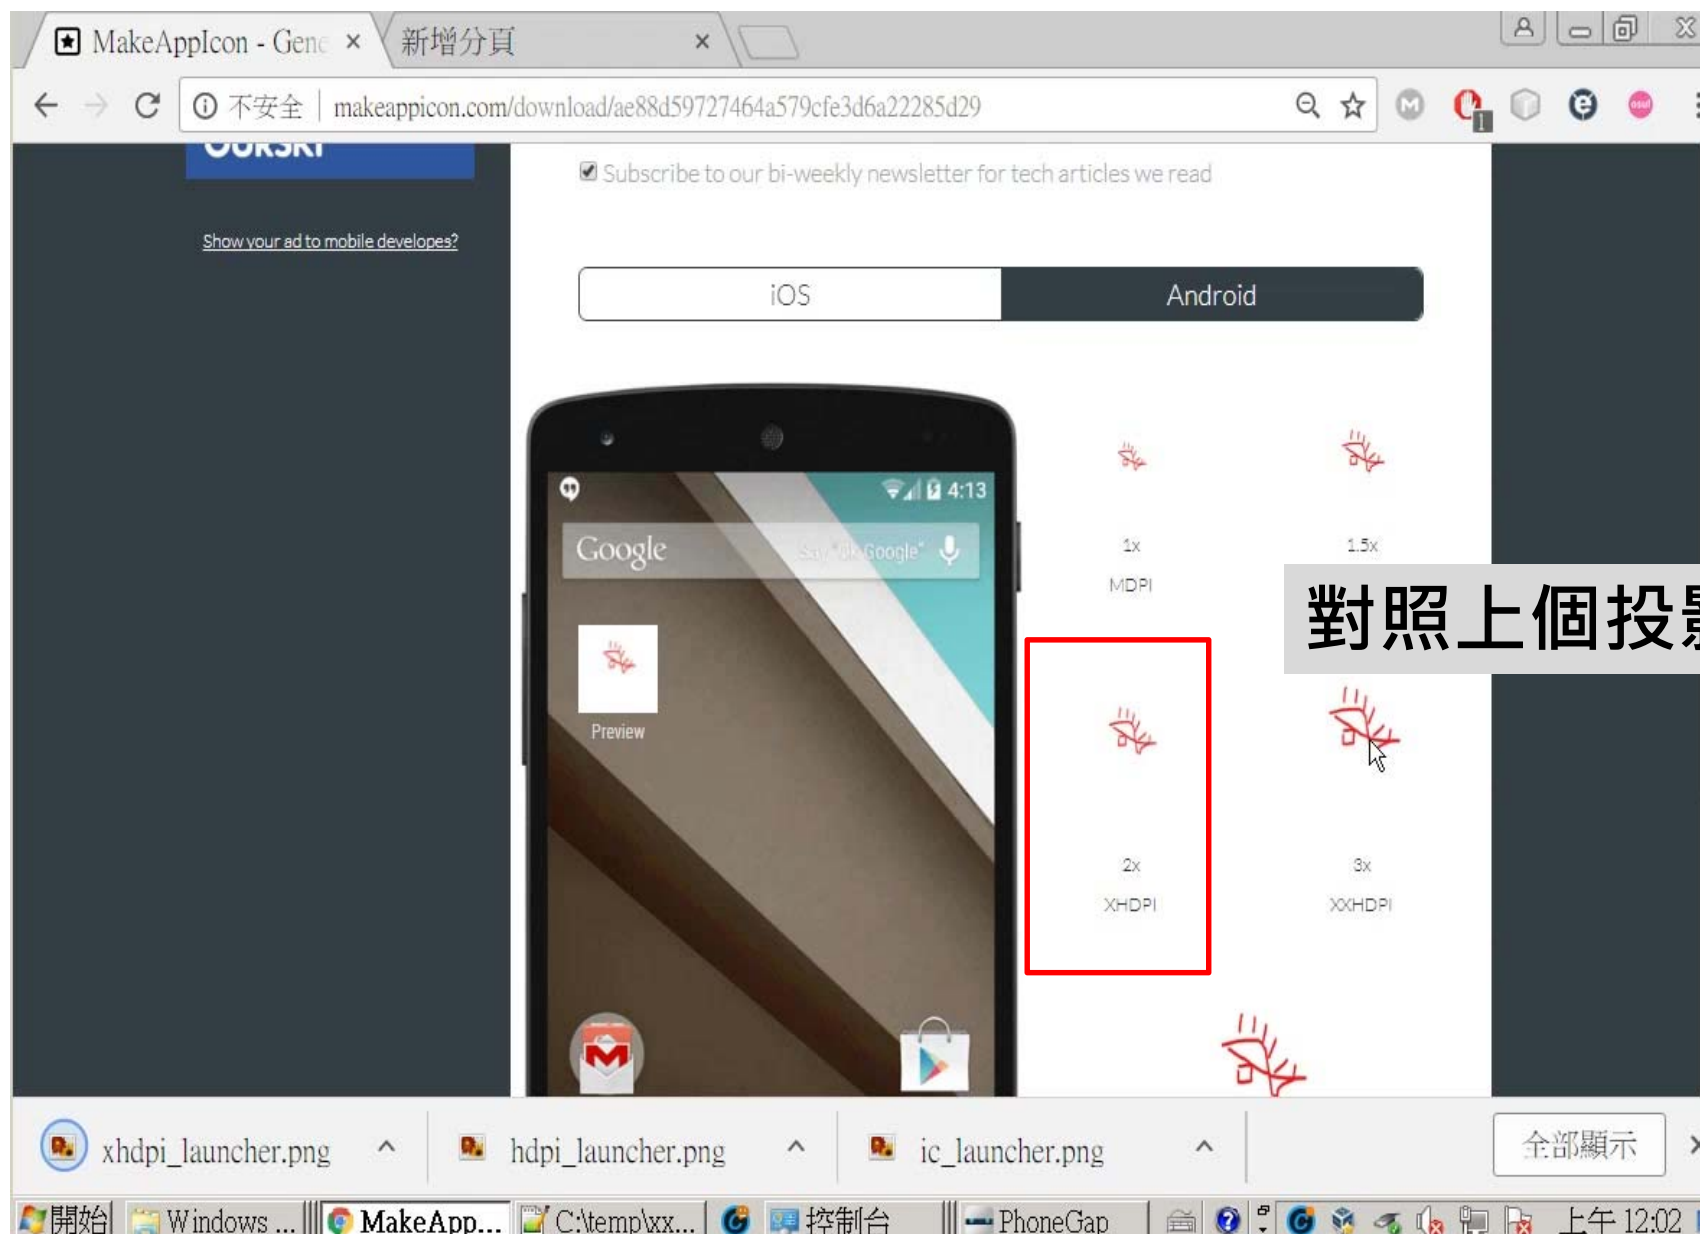

The screenshot shows a web browser window with the MakeAppIcon website. The website has a dark background with several promotional banners. The first banner is for 'Create Perspective Mockups in Sketch' with an image of a smartphone. The second banner is for 'ShotBot' with the text 'The Only App Screenshot Designer Developers Need' and a 'LEARN MORE' button. The third banner is for 'OURSKY' with the text 'We create Mobile Apps and Digital Products'. In the center of the browser window, there is a preview of a mobile app interface. The app has a dark background with a 'Google' search bar at the top. Below the search bar, there is a red circle around a 'Preview' button. The app also shows a 'Google' icon and a 'Play Store' icon. To the right of the app preview, there are several red icons representing different screen resolutions: 1x MDPI, 1.5x HDPI, 2x XHDPI, 3x XXHDPI, and 4x XXXHDPI. A purple arrow points to the 4x XXXHDPI icon. The browser's address bar shows the URL 'http://phonegap.appiq.software/'. The Windows taskbar at the bottom shows the Start button, several open applications (Windows Explorer, MakeApp..., C:\temp\xx..., 控制台, PhoneGap), and the system clock showing '下午 11:58'.

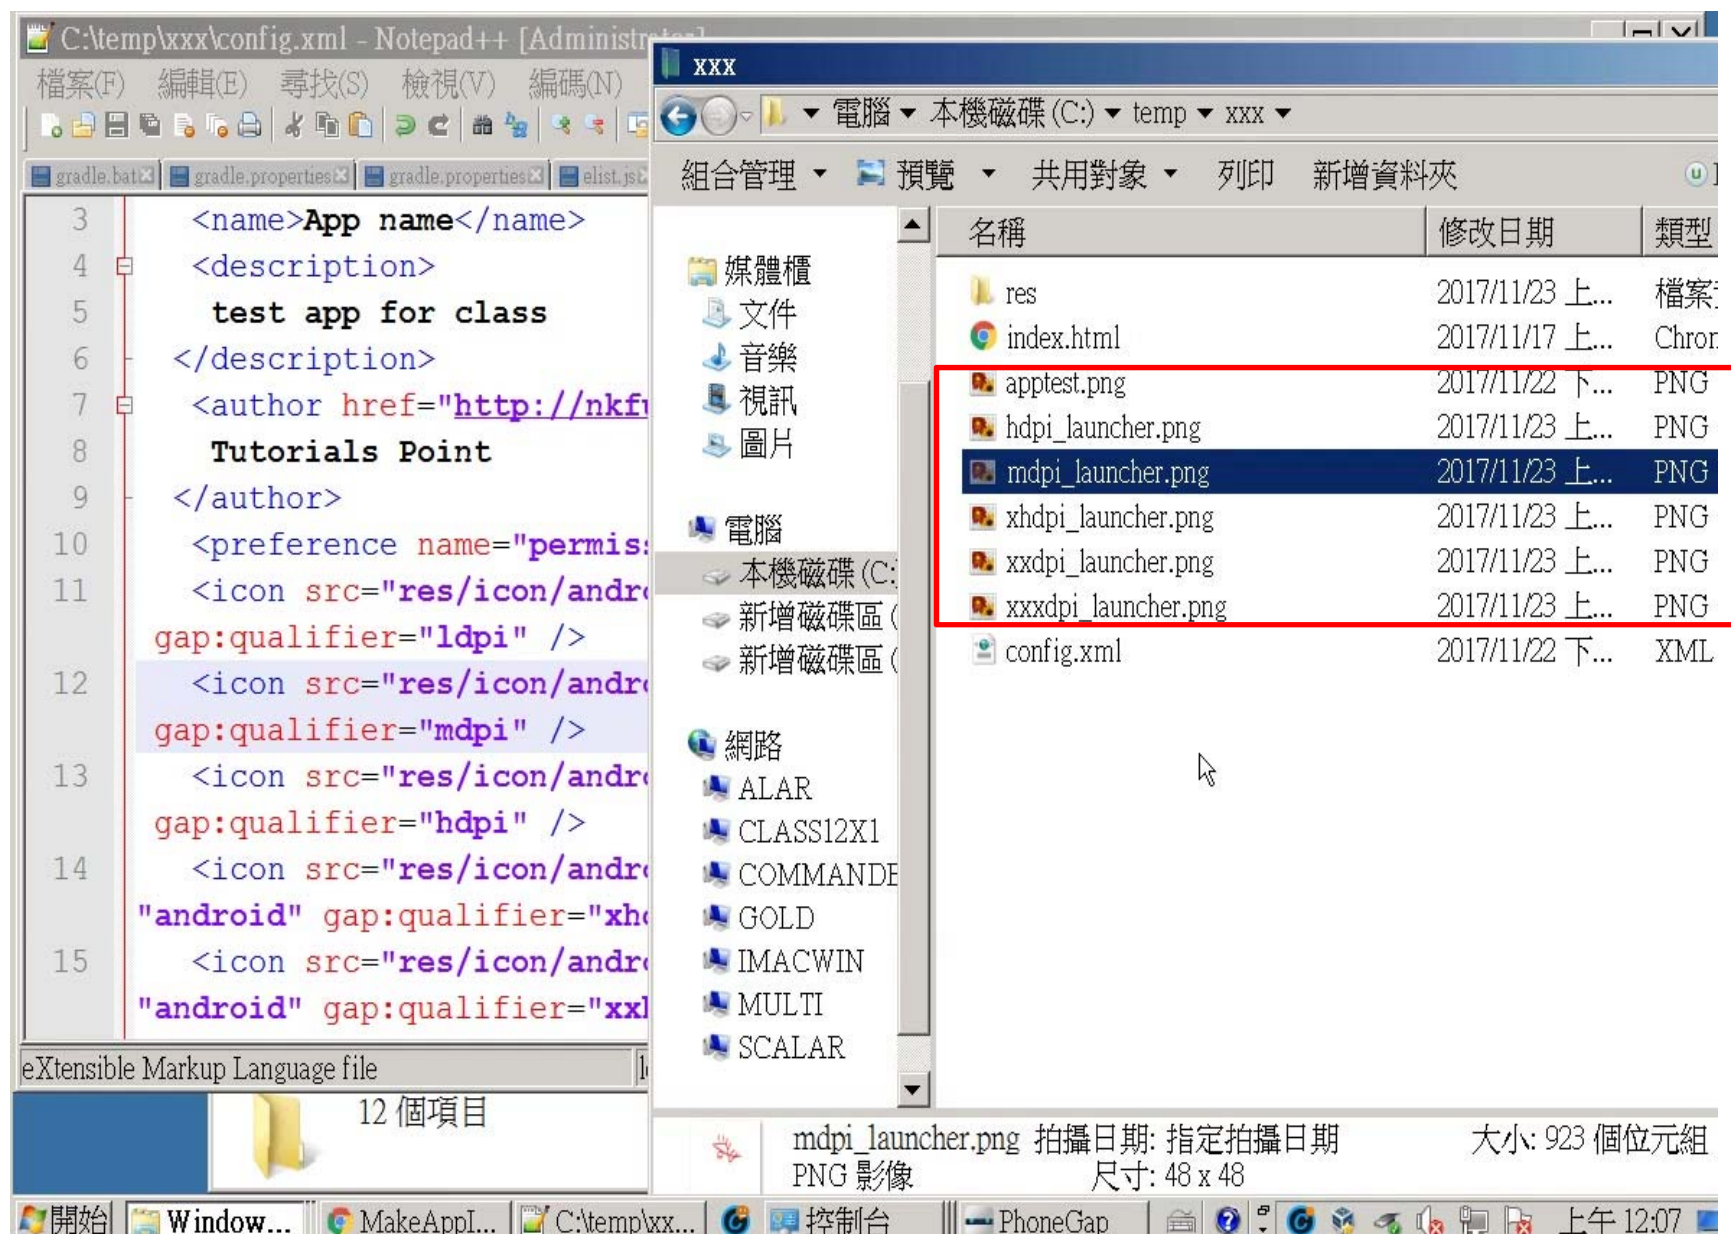

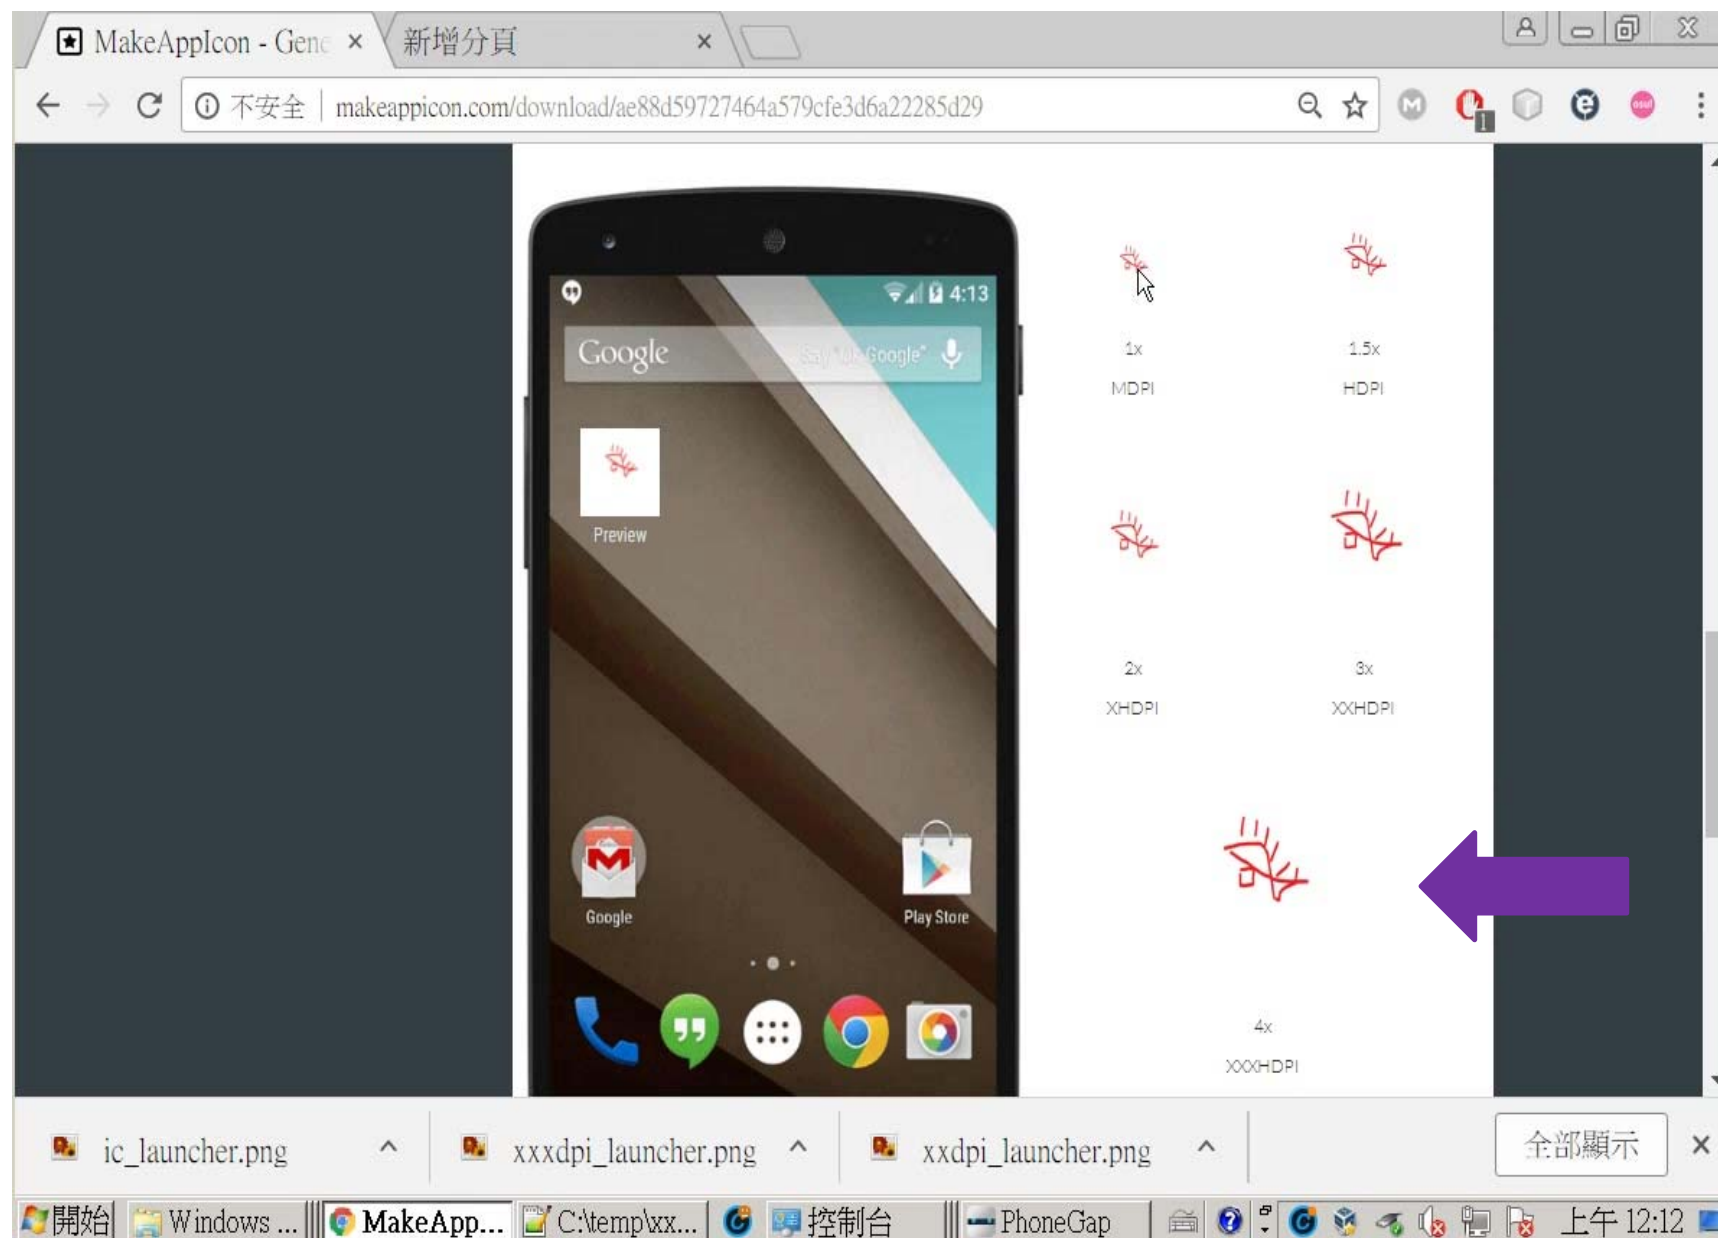

Adobe PhoneGap Build 新增分頁
